1. Jira backlog with Epics and User Stories

Aryan Upadhyay | SRN: PES1UG25CS806 | Section C | Lab 2 - Jira project PGS (upadhyayaryan66.atlassian.net)

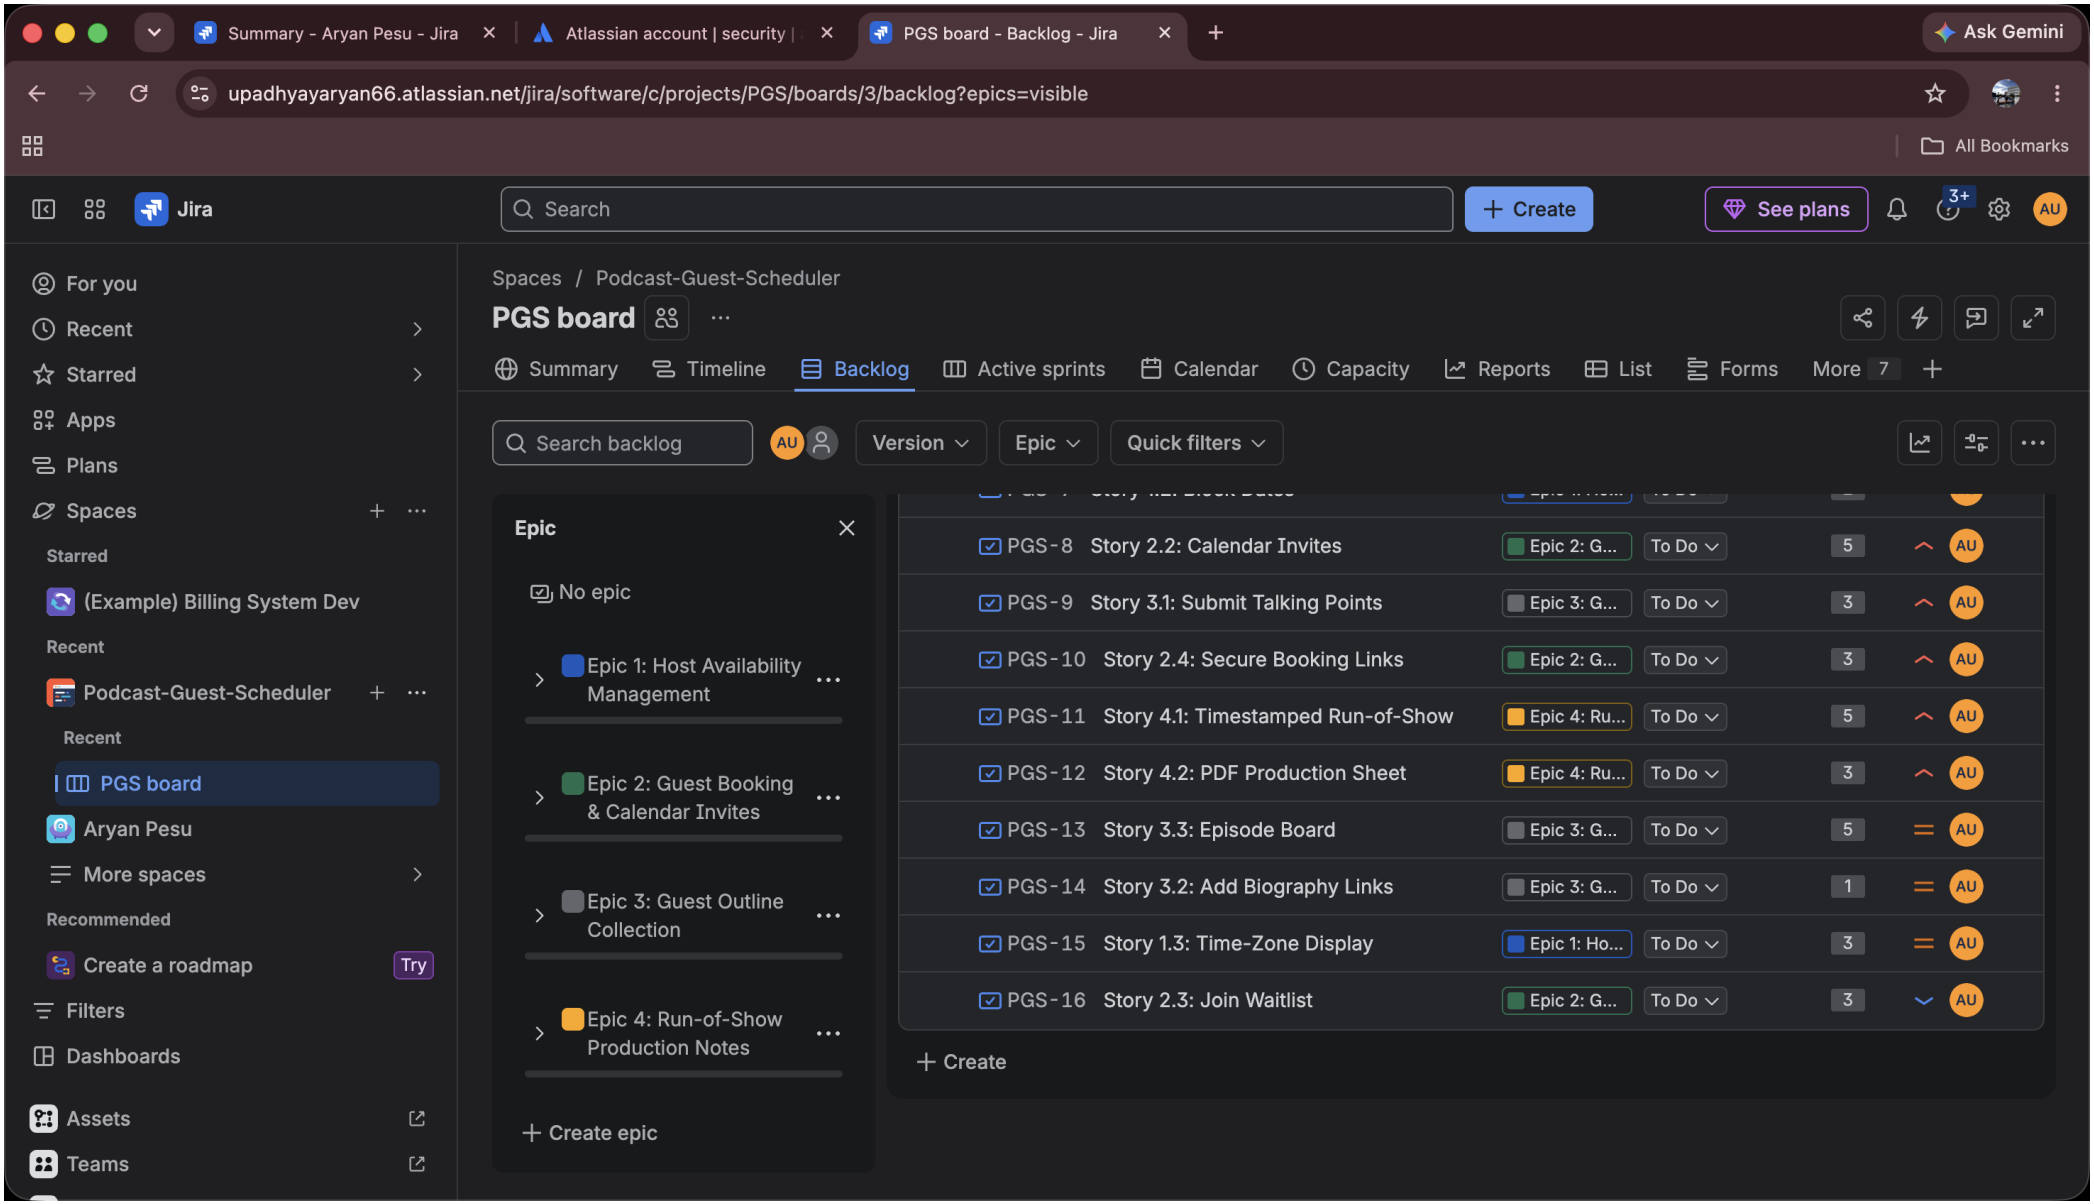

Project Podcast-Guest-Scheduler (PGS): epic panel with 4 epics; backlog of 12 user stories (41 points) before sprint planning.

2. Story point assignments

Aryan Upadhyay | SRN: PES1UG25CS806 | Section C | Lab 2 - Jira project PGS (upadhyayaryan66.atlassian.net)

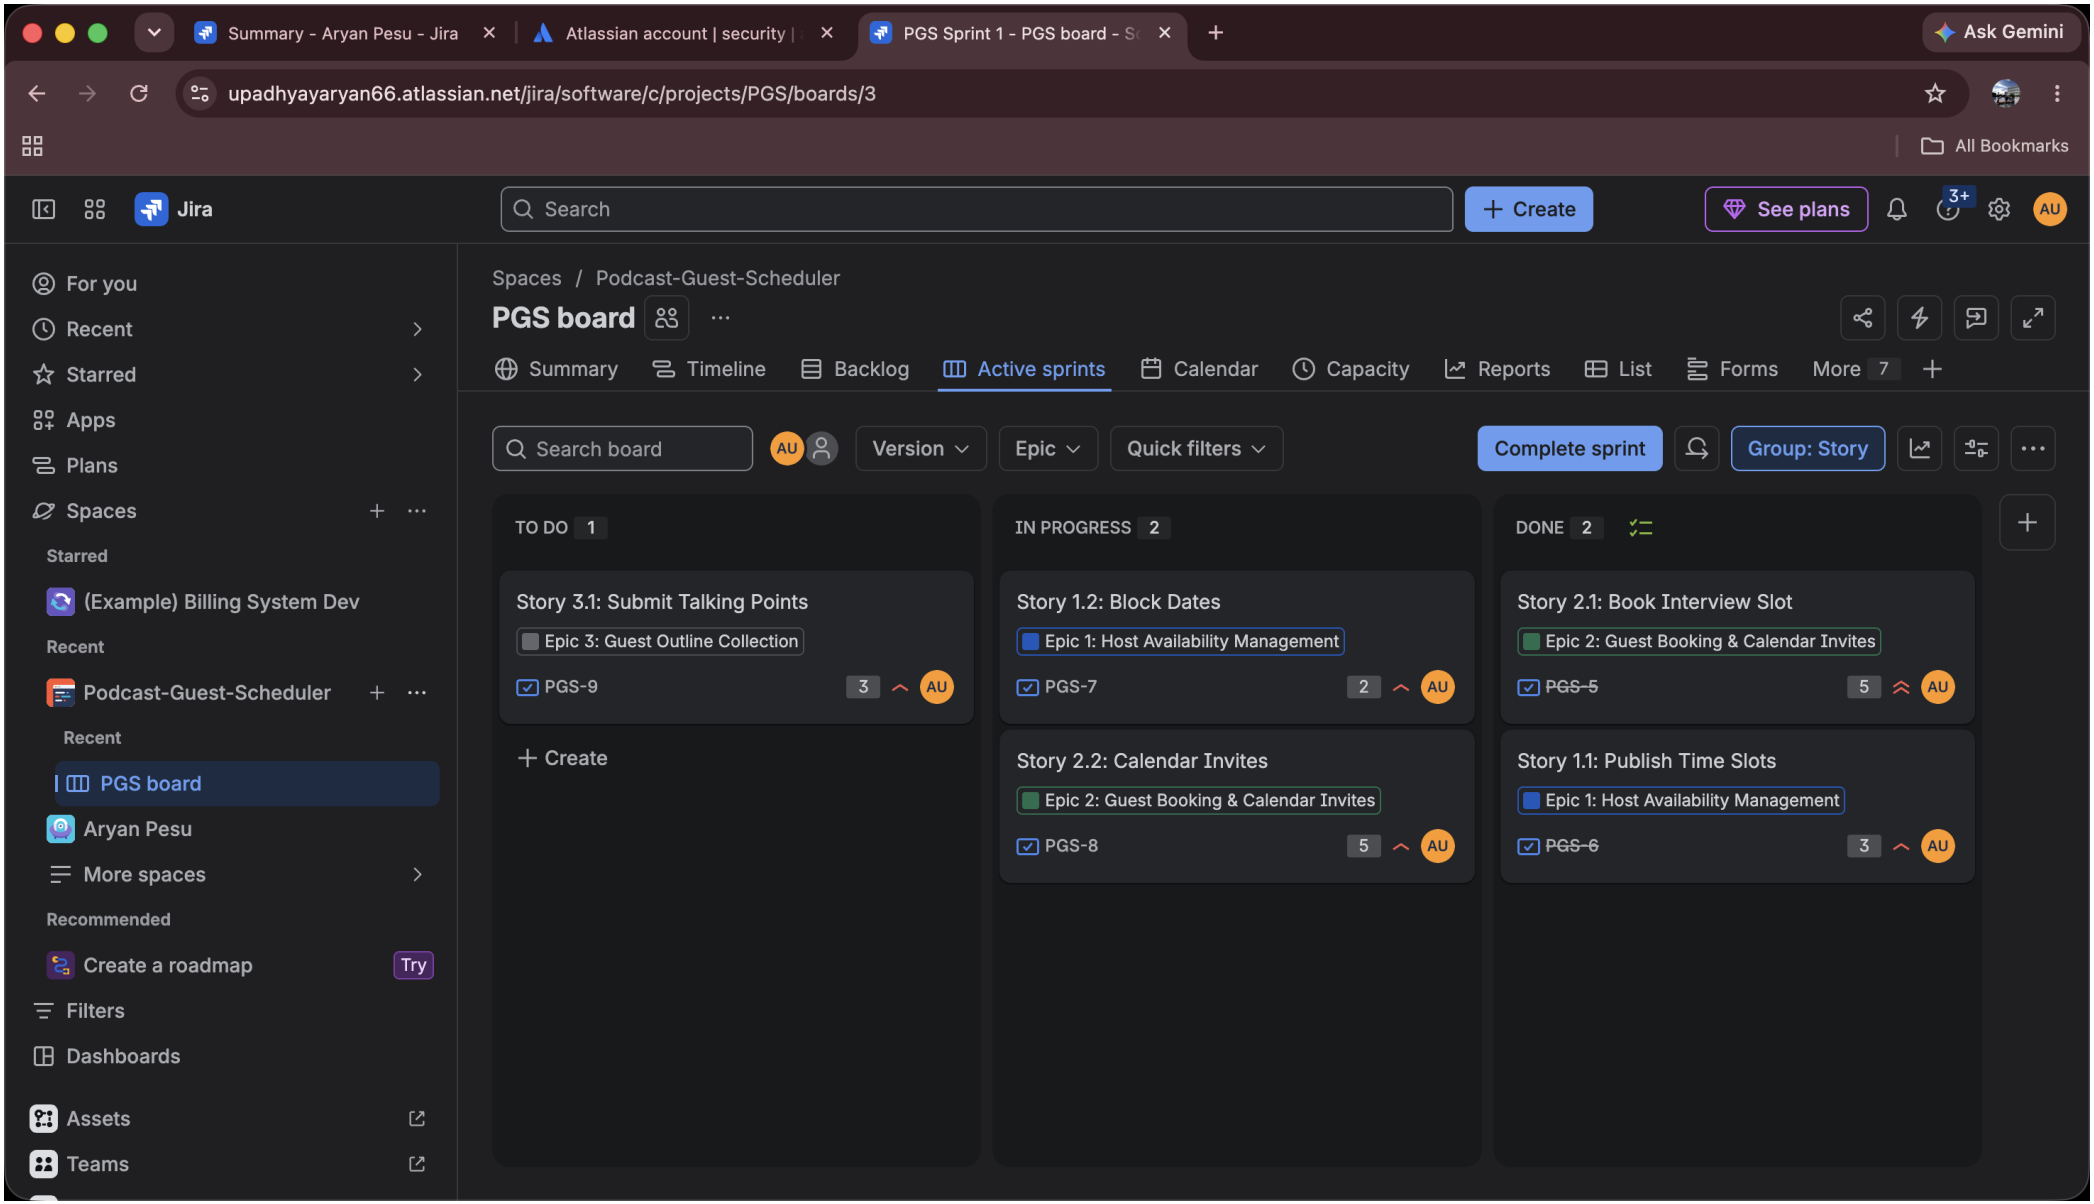

Each story with its epic, status, Fibonacci story points and priority, ranked by priority.

3. Sprint board (Active Sprint view) - PGS Sprint 1

Aryan Upadhyay | SRN: PES1UG25CS806 | Section C | Lab 2 - Jira project PGS (upadhyayaryan66.atlassian.net)

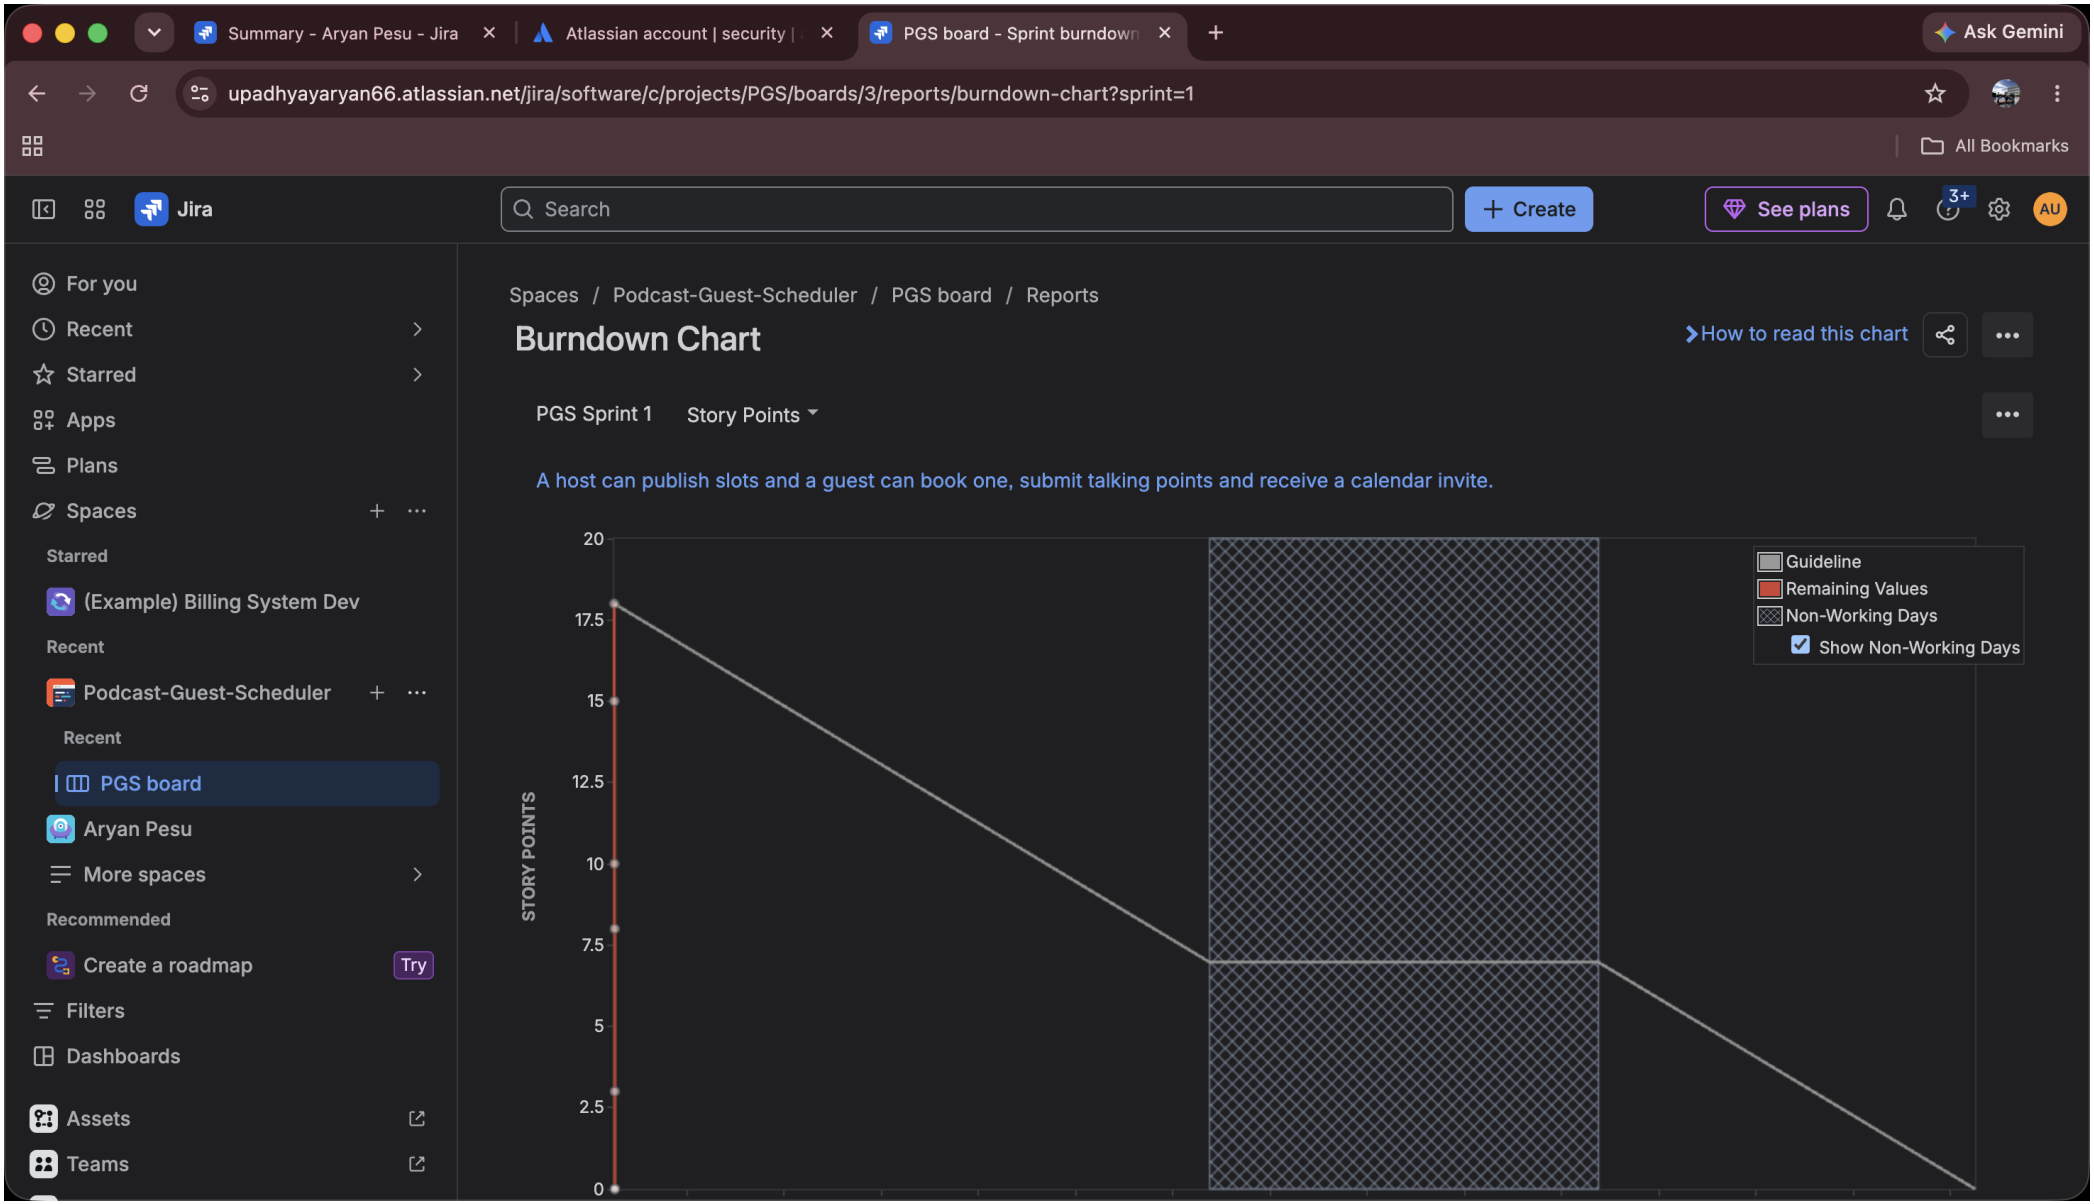

Mid-sprint: stories moving To Do -> In Progress -> Done.

4. Burndown Chart - PGS Sprint 1 (18 points)

Aryan Upadhyay | SRN: PES1UG25CS806 | Section C | Lab 2 - Jira project PGS (upadhyayaryan66.atlassian.net)

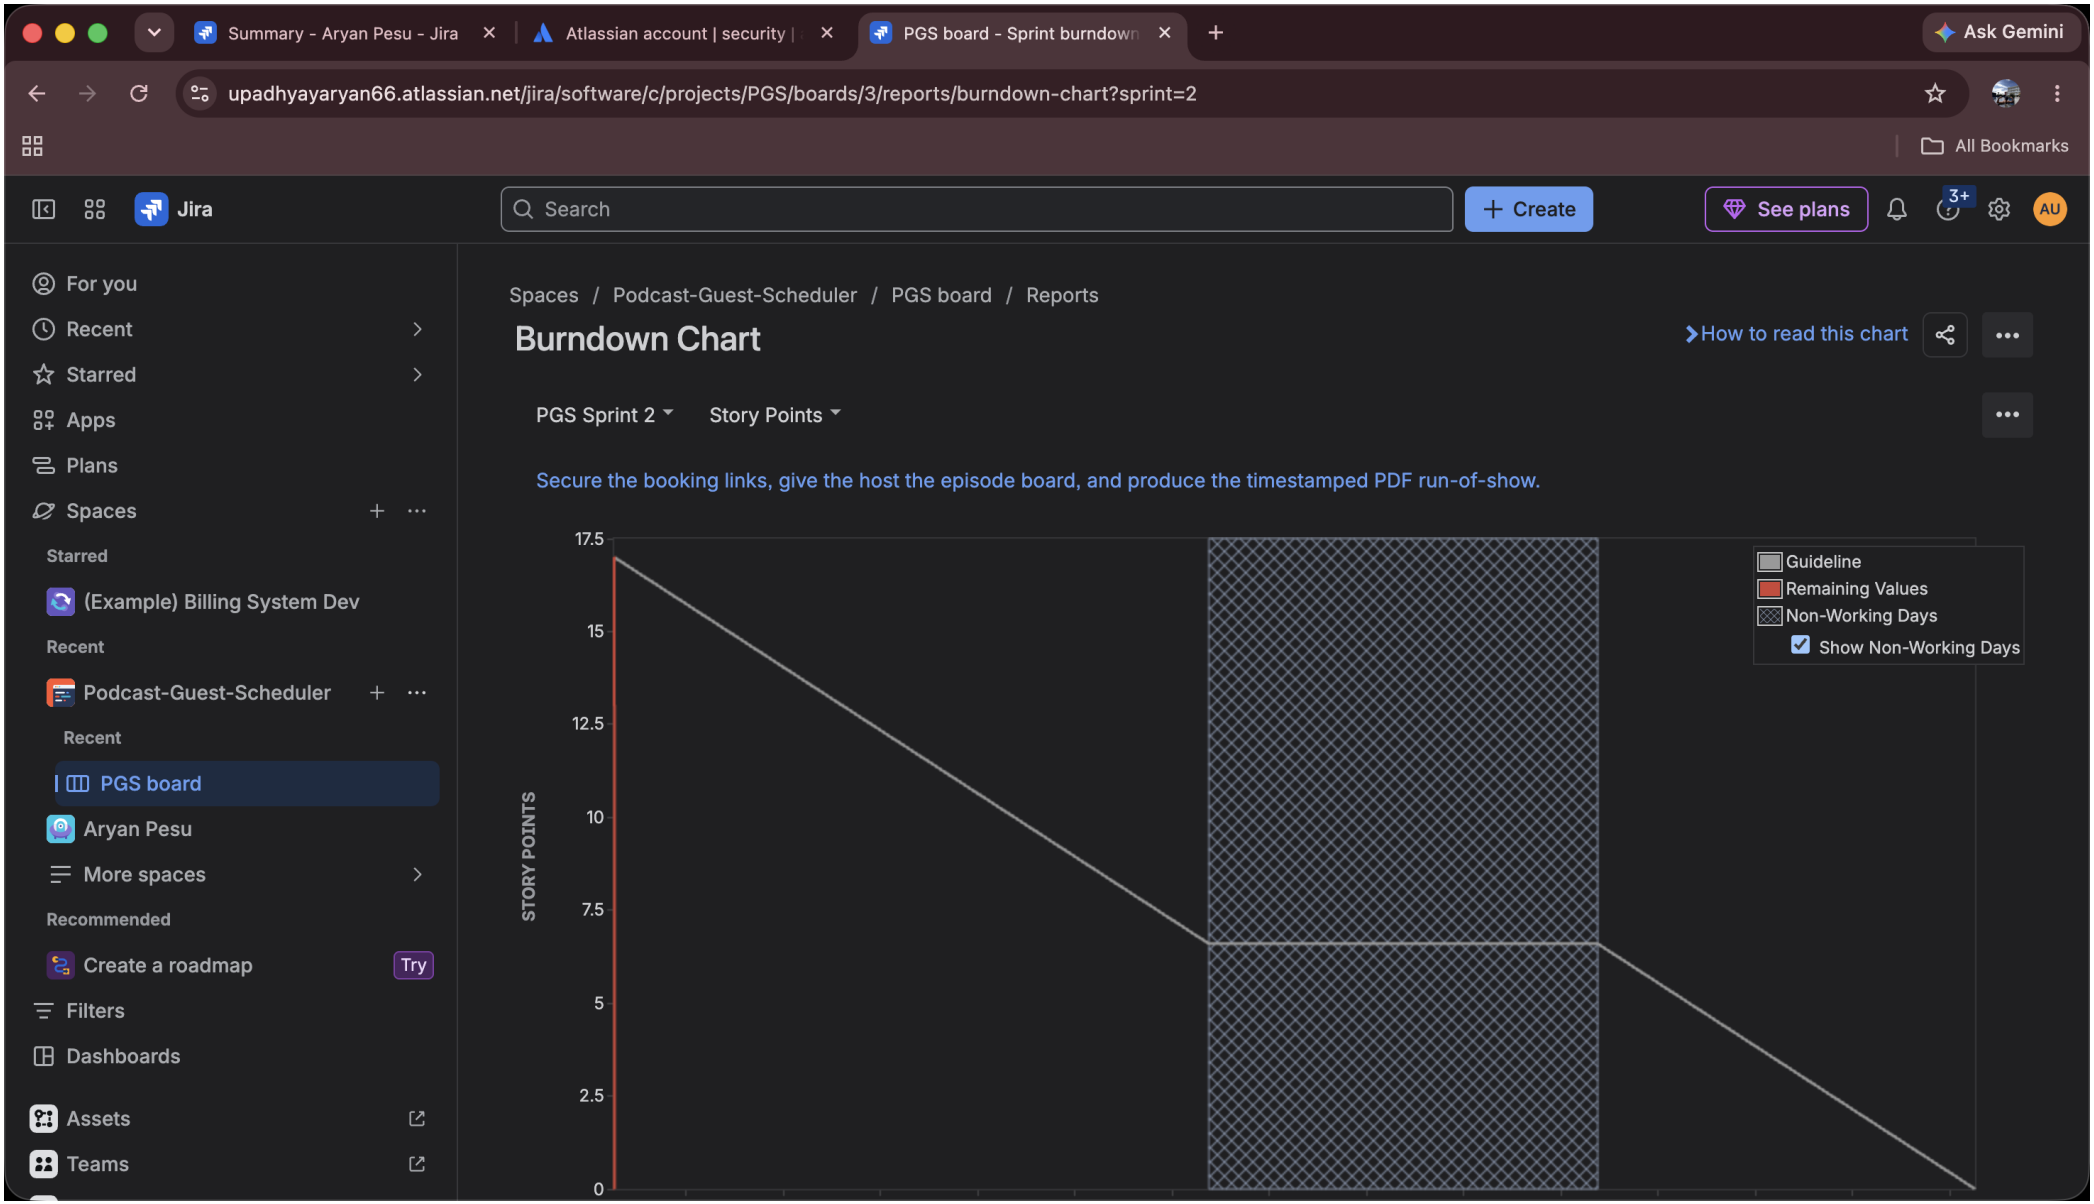

All 18 committed points completed; red line = remaining work, grey = guideline, hatched = non-working days.

5. Burndown Chart - PGS Sprint 2 (17 points)

Aryan Upadhyay | SRN: PES1UG25CS806 | Section C | Lab 2 - Jira project PGS (upadhyayaryan66.atlassian.net)

All 17 committed points completed.

6. Epic progress after both sprints

Aryan Upadhyay | SRN: PES1UG25CS806 | Section C | Lab 2 - Jira project PGS (upadhyayaryan66.atlassian.net)

Epics 3 and 4 complete; Epics 1 and 2 have one story each left in the backlog (6 points).
